CIRCULAR LETTER

October 9, 2013

The circular letter of October 2012 from the Chairman of the Rules Committee specified that the new heavier jibs were mandatory in the International events organised in 2013 and, from the National Championship up, from January 1, 2014.

After responses received from around the World, the Rules Committee recommended to the Board of Governors that this requirement be postponed at the National level.

Therefore, the enforcement of the heavier jib weight is delayed for National level events until 2015.

The International Regattas in which the heavier jib will be mandatory shall be communicated soon.

Decision of the Board of Governors of September 22, 2013

Antonio Bari
Chairman
International Rules Committee
