of Governors

December 1 – ballots due

Positions to fill for 2002

Rear Commodore

Members at Large: 2 positions

Chief Measurer

Commodore's Column

This promises to be an eventful year for our Class. A considerable number of important issues recently approved by the International Board of Governors, is presently being addressed by SCIRA.

To keep you up to date, the following is the status of a couple of issues that I think are of particular interest:

- SMC Centerboard (carbon fiber board) - Ola Nygård, our North European Secretary, has agreed to take responsibility for negotiation of contract details with Inapal, the SMC Centerboard manufacturer. Ola has over the years been very active in the Class, not only on the race course but also as a SCIRA officer, and is from a professional point of view particularly well qualified to pursue our interests. These efforts will be conducted in conjunction with the respective SCIRA officers, to ensure a continuous and lasting supply of boards. Among various points to be resolved jointly, are pricing (very important), currency considerations, maintenance of inventory, shipping, billing, accounting procedures, warranties, quality control and patent issues. Hopefully these negotiations will be concluded in the near future so that we can start providing the boards to all interested Snipe sailors.
- Rule Book - this is probably the most important item presently being dealt with. Since we are very much part of the International Sailing Classes, we unfortunately have had to wait for ISAF to finalize their 2001-2004 Racing Rules of Sailing (RRS). They are now ready and Alex Pline has been kind enough to make all of the sections available to the Snipe Mailing List through the Internet. We can now finish our own Rule Book, without running into compatibility problems with ISAF. Considering all the changes and revi-

sions that still have to be made, we are hoping to have the printed version ready by the end of this semester. Rejoice all members of the IS (International System) community. The book will be in the metric system. The U.S. as a whole is in all fairness, also converting to metric. We are getting there inch by inch.

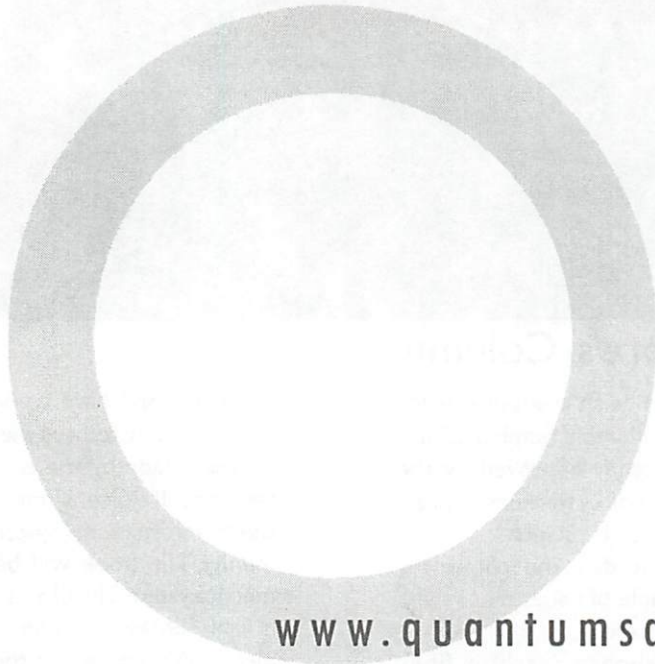

Just as a reminder, all countries should have paid their dues by the end of March 2001 and provided the SCIRA Office with the corresponding list of members. I would like to emphasize the importance of maintaining our database up to date and assuring that SCIRA has the funds to provide all of you with the administration and services you have come to expect over the years.

Good sailing.
Bertel A. Bojlesen

Chief Information Officer speaks!

E-mail List

The new mailing list is now operational using the Lyris Listmanager. The address is Xsnipe@list.sailingsource.com. Remove the "X" which was added to prevent spammers from getting the correct address. Mail sent to this address will be forwarded to the list. Anyone can send mail to the list. You can also read the mail using the Lyris Web interface. See the mailing list page for details.

What's up with the online ordering system??

Another casualty of the server move was the on-line dues and merchandise ordering system. It is up and working now!

2001 regatta Schedule is on the web!

2001 Junior Worlds Web site:

Mentor Harbor Yacht Club in Mentor, Ohio, USA is hosting the event. The website is: www.faretec.com/jrworlds/

2001 Snipe World Championship site will be up soon – keep looking for news on the Snipe web page!

New Archives

Archives of the International newsletter The Snipe Bulletin are online. Now you can get electronic copies of past newsletters in PDF format.

Thanks to CIO and Webmaster Alex Pline for keeping SCIRA up to date!!

Proposal on the New Membership System

Jiro Yamamoto/ SCIRA Japan

The new SCIRA membership has begun started from 2000 and the SCIRA member's due is increased from 2001 based on the new membership system. In this connection I have the following opinion on the structure of membership and the way we register members to SCIRA, as follows;

SCIRA Membership;

SCIRA membership now has two categories of membership: Skipper Member and Crew Member. I suppose that this will be coming from the historical fact of which SCIRA members were basically consisted by the owners of Snipe before

In my opinion, the classification of "Skipper" and "Crew" should be removed. Both of skipper and crew are Snipe sailor and part of the Snipe family. Therefore, all Snipe sailors of skippers and crews shall be one category of SCIRA membership. Snipe can be sailed only by both skipper and crew. Basically we can not define which is important for successful sailing.

As another aspect, when classification of skipper and crew will be removed, the number of SCIRA member will be drastically increased. In such case we will be able to reduce the due for member such

as \$5 for a boat and \$10 for a member for all Snipe sailors without classification of skipper and crew.

Registration system

In order to simplify the registration system for membership, I would like to propose a more simple method as follows:

1. In the beginning of the year, each National Secretary will request from the SCIRA office the estimated number of Decal and Member cards on which the year will be printed but the column for name shall be blank.
2. National Secretary will issue Decals to the boat owners and also issue Member cards to the members by writing their name on the column for name.
3. National Secretary will report SCIRA office with the list of registered boat owners name and boat number and the list of members together with the dues corresponding to the list.
4. In the end of the year, National Secretary shall return remaining unused Decals and Member cards.

I am very happy to hear any comments on the above from SCIRA members.

Royalty Among SCIRA

SCIRA Past Commodore Fujiya Matsumoto renewed an old friendship recently when the King and Queen of Norway visited the Emperor and Empress of Japan. On March 28, Enoshima Yacht Club, where Matsumoto is the current Commodore, welcomed the honorable guests.

King Harold was an Olympic sailor in the 1964 Tokyo Games and Fujiya also represented Japan in the same class, the Dragon. King Harold wanted to show the Queen Enoshima Yacht Club and the 1964 Olympic venue.

Shown above, left to right: Queen Sofia of Norway, Empress Michiko, Fujiya Matsumoto and King Harald of Norway. photo courtesy of Motoko Matsumoto

From the Chairman

This is my first column for the *Snipe Bulletin* in my new position as Chairman of SCIRA's International Rules Committee.

I thank you for trusting in me and I will do my best to continue, with the help of our Rules Committee members to serve the Class keeping close connections with sailors, builders and sailmakers. We are all together playing a very important role to develop and make the Snipe Class bigger and stronger.

The job of the Rules Committee is to enforce the rules voted upon and passed by the Board of Governors. The Rules Committee is also open to cooperate with all to make the rules acceptable giving needed assistance to all that ask.

The new Rule Book contains many new or deeply modified rules, and I anticipate a short period of settlement.

Currently we are working to re-structure the Rules Committee to assign specific tasks to each member, under control of the Chairman, to speed up various processes and give a broader and more international view of each consideration. I will keep you informed as soon as our plans have been formalized.

Feel free to contact any member of the Rules Committee for needed explanations or clarifications to make sailing Snipes as much fun as possible.
Happy sailing

Giorgio Brezich
Chairman

Approved Sail Materials

The following materials have been recently approved by the International Rules Committee:

Challenge Sailcloth PO5-15 1.5 mil, 2.9 oz
Dimension Polyant P2MX 1.5 mil, 33 oz

In addition to the above, those previously approved by SCIRA include:

Contender AP8
Dimension Polyant PL2X (1.5 mil)
Dimension PM -05 (1.5 mil), formerly M290
Dimension PM-05 (1 mil), formerly M240
Bainbridge SL 1000P
Diax 60 P

Rules Interpretations Page Updated

Antonio Bari is tasked with maintaining the Rules Interpretations page on the Snipe web page. Antonio has recently up-

dated the page adding new features and a News section. SCIRA's updated advertising policy, ISAF's new protest rules and an updated table of SCIRA scoring penalties are new additions. Check it out either as a link from the Snipe web page (www.snipe.org) or directly at: [http://](http://www.vivoscuola.it/us/brantn311/Rules_page/index.htm)

www.vivoscuola.it/us/brantn311/Rules_page/index.htm

Rules Page Link

via www.snipe.org
or

http://www.vivoscuola.it/us/brantn311/Rules_page/index.htm

Who are these Rules Gurus??

You may wonder how the various members were chosen to serve on the Rules Committee and what they do. Typical questions vary from questions on measurement of Snipe hulls from builders, owners and even individual builders of wooden hulls, to someone re-building an older hull and questions of legality; new inventions or modifications of rules, compliance with ISAF rules; new cloth considerations; Sailing Instruction & Rules of Conduct for SCIRA championships, Constitution & By-laws changes, publication of rules changes on the SCIRA web page, etc.!!

Each of the members listed above represent various talents to help round out our Rules Committee. Here are a few examples of their qualifications:

Giorgio Brezich: Italian national measurer for more than 30 years. Vice Chairman, Rules Committee for 3 years and member of Rules Committee for 15 years. Giorgio has sailed Snipes since 1946 and built 4 Snipes in the '50's & '60's of mahogany & plywood. He lives in Trieste, Italy with his wife Plinia.

Steve Stewart: US Chief measurer for 2 years, measurement chairman of 1997 Worlds, has sailed Snipes since 1972 and competed in Pan Am Games. Steve is a steel building contractor by trade and deals largely with various material types, design & strength. He lives in San Diego with wife Roberta.

Hisanao Kato: Kato has been the Chief Measurer of Japan for the past 40 years! He has been involved with the Snipe class for over 45 years, having built and launched the first Snipe in Japan in 1948. Kato is an ISAF International measurer for the Snipe and other classes as well. Kato worked at a sail cloth manufacturing company just after finishing his University studies and prior to retiring, was a businessman.

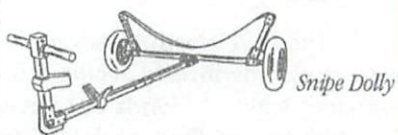

Antonio Bari: Antonio is a teacher by profession and brings the sailors perspective to the Rules Committee, having represented Italy several times in major championships. Antonio is also responsible for the rules section and drawings on the Snipe web site, keeping all Snipe sailors informed of rules interpretations and changes. He lives in Trento, Italy with his wife and child.

Dina Kowalyshyn: member of ISAF measurement committee, ISAF center-board committee and Vice Chair of the Sailing Committee. Dina is a Naval Architect and Aerospace Engineer by education. She worked on hydrodynamic solutions in design problems in the towing tank and then moved to the wind tunnel. Now Dina is the junior program Director at Severn Sailing Association in Annapolis, Maryland and is also a mom to 2 boys. Dina's husband Bob is a Naval Architect and works at the towing tank.

Johnny MacCall: Rules Committee member for 6 years, National Secretary 8 years, Vice WH&O Secretary for 4 years, National measurer for 9 years. Johnny has won 13 national championships in various boats as well as qualified for every West-erns or Worlds since 1980! Johnny has an MBA in Administration, lives in Buenos Aires with his wife Silvina and 2 boys!

Fernando Garrafa: Chief measurer for Brazil since 1995. Fernando has worked hard for the past 6 years to find easier ways to measure the Snipe and has attended the measurement clinic in 1997 and held many clinics in Brazil. He is a civil engineer by trade and lives in São Paulo with his wife Celia. He began sailing Snipes many years ago and one of his 2 sons also competes in the Snipe

SEITECH Launching Dolly

Snipe Dolly

Ideal for launching, moving, and storing your boat. Light, strong, corrosion-proof, maintenance-free. Aluminum frame, engineered plastic joint components, stainless steel fasteners, 3"-wide sling, and pneumatic ATV wheels with plastic rim & Delrin needle bearings. Rolls easily over sandy and rocky beaches.

Comes as a kit. Easy to assemble, no-tool breakdown into 3 pieces. UPS shippable. One year warranty.

Choose our 16 x 6, 9.5 x 19, or 11 x 22 ATV Wheels.

We've got a dolly for any dinghy!

Snipe News Around the World

Poland: National Secretary Jacek Bloch has received the Devoti Snipe molds and will begin production of Snipes through Mr. Halupka, who owns a boat yard outside of Poznan. This is a huge step for SCIRA Eastern Europe!

United Kingdom: National Secretary John Love reports that the outbreak of foot and mouth disease on a farm outside the Budworth Club may stop all sailing and cease the Brits from moving their boats elsewhere. John also reports that the exchange between England and Spain with young Cadet sailors continues with Spanish juniors coming to Stone. Thanks for Eric Broughton & Spaniard Fernando Rita for continuing this tradition.

Japan: Past Commodore Fujiya Matsumoto was recently selected as Vice Chairman of the Japanese National Authority, JSAF.

2001 North American Championship

Nassau, Bahamas

March 31-April 3

The 2001 North Americans followed the Midwinter Circuit from Clearwater & Miami, Florida to Nassau. With a compressed Circuit schedule for the Bacardi Cup and Dudley Gamblin Memorial, a days rest was given to all competitors with the measurement team busy certifying all boats & sails for the North Americans.

The first day of the North Americans had threatening weather with the morning race postponed. Once the AP was dropped, the fleet went out with 2 races scheduled back-to-back. Clearing skies, flat water and a 12-15 knot breeze in paradise! Alexandre Paradedas and cousin Eduardo Paradedas (Brazil) led at the weather mark, but Bill Hardesty and Jon Rogers (USA) passed them at the bottom mark to lead the rest of the race. These two teams would exchange first place among themselves for the rest of the regatta

Race 2 was an Olympic course in varying breeze of 12-15. Paradedas/Paradedas were fast off the start line and had the race in the bag from start to finish. Hardesty/Rogers and Andrew Pimental/Monique Gaylor (USA) were in the hunt as well as Jimmie Lowe/Gavin McKinney (Bahamas). But at the finish, it was Paradedas, Hardesty/Rogers, Pimental/Gaylor, Rick Arneson/Gus Wirth (USA) and Lowe/McKinney rounding out the top 5. The sailors were greeted at the dock with fresh coconuts and gin and a steel drum band, giving everyone time to chat and dance.

The second day was an absolutely perfect day for sailing Snipes..... 10-12 for the morning race across crystal blue waters and warm temperatures. Paradedas once again had a perfect start and never looked back. A w-l course sent the fleet off; Szabo/Cronin and Hardesty/Rogers duking it out for 2-3 with a left shift coming in for the finish. After another great lunch break and Margaret's hamburgers & Kali's, the fleet set off for 12-15 knots on Montague Bay. Hardesty/Rogers punched off the start (with the "Z" flying). Paradedas was deep but clawed his way back to 2nd. Marcatelli/Zapatoski (Argentina) hit a big left shift

to round 3rd at the 2nd windward mark. The next group changed places on every leg with really tight competition.

ANOTHER perfectly beautiful day in Nassau. The fleet went out for the final 2 races at a 9:30 start with back-to-back races and winds of 12-15. After a recall, the fleet was off on a w-l. Hardesty/Rogers rounded first with Szabo/Cronin 2nd, but Paradedas got Szabo/Cronin at the first leeward mark. Puffs came and went and the right would kick in giving a few a better position. At the finish: Hardesty/Rogers, Paradedas, Szabo/Cronin, Marcatelli/Zapatoski, Mike Funsch/Marty Kullman in the top 5. 2nd race was another recall with a "Z" flag and a clean start. Hardesty/Rogers started in the middle with Paradedas on their hip. One shift out to the right and Paradedas were in the lead with a nice margin. Arneson/Wirth stayed in 2nd with

Funsch/Duffy in 3rd to lock up 4th overall. Hardesty/Rogers sailed their drop race of 5th.

The Royal Nassau Sailing Club put on another terrific combined Midwinter Circuit/North Americans. The Snipe Class is growing in Nassau, and regattas with great attendance help to fuel the fleet!

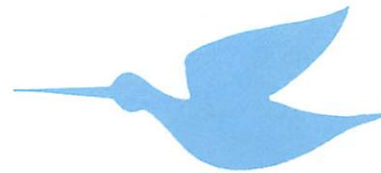

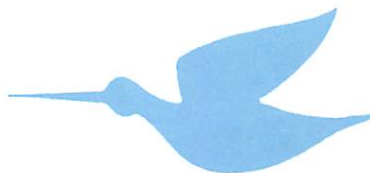

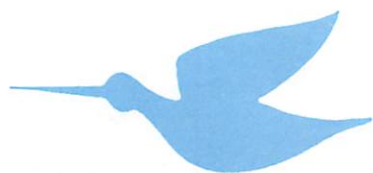

Congratulations to Alexandre & Eduardo Paradedas as the new North American champs and for a great regatta!

Photos: top, new NA champions Alexandre & Eduardo Paradedas of Brazil. Bottom: 2nd place Bill Hardesty & Jon Rogers of the USA with Bahamians Lori Lowe and Regatta chairman Peter Andrews. Photos courtesy of Edward Roberts.

South American Championship

The 2001 South American Championship was held at Lake El Cadillal, Tucumán, Argentina, April 8-14 under the supervision of Tucumán Yacht Club, Snipe Argentina Association and Fleet 831.

El Cadillal is a beautiful place, with picturesque mountains, about 30 km north of Tucumán City. This lake is an excellent race area for dinghies, one of the best in Argentina due to good winds, and the layout of the lake.

43 boats from Brasil, Chile, Uruguay, Paraguay and Argentina arrived making this event quite international. One team from Brasilia DF, drove 3,300 km to compete!

The first regatta held was for Master, Mixed and Women's teams held Monday through Wednesday, April 8-10. 20 boats and 5 races were held with one throw-out. The Race Committee used the double windward/leeward course, with the wind around 8-12 knots during these 3 days. The winners of the different categories were defined in the last race.

The Senior-Junior Championship, with 7 races planned, and one throw-out, began on April 11 Wednesday morning with opening ceremonies. Government representatives from Tucumán state, foreign teams, SCIRA members, judges, and the Organizing Committee were all in attendance. The regatta began at 2pm, with 43 boats on the water. The first 4 races had 4 different

winners confirming the high level of competition in the fleet. The 3rd day, the races had to be cancelled by the RC for lack of wind.

On the last day 3 races were held in a strong south wind (gusts to 24 knots) challenging all competitors. The brothers Cristian y Alejandro Noé, of Club de Velas Rosario, Argentina, won all 3 races showing their excellent aptitude for these extreme conditions, and captured their third South American Championship.

Alex Bunese Juk y Piero Furlan of late Clube de Santa Catarina, Brasil, were the Junior winners.

The Race Committee work was excellent, managed by our old "snipista" Pedro Sisti. Manuel Naveira, Antonio Gneri, and Francisco Agusti, served as Protest Committee.

The Championship closed with dinner, beer, and trophies. The Snipe Class danced until dawn!

The National Secretaries consisting of Marcelo Pesci, Argentina; Pedro Garra, Uruguay; Pablo Cisterna, Chile; Sebastian Gorostiaga, Paraguay; Hugo Muller Neto for Brasil, and Pancho Agusti as SCIRA Board Member, agreed that Paraguay will host the 2002 SA at SB Club.

Julio Grellet
Commodore Tucumán Yacht Club

Southern European Championship

SanRemo Easter Regatta April 14-15, 2001

41 crews participated in the Sanremo regatta for the Championship of Southern Europe. A large group of Swedish and Danish crews, led by Thomas Iversen, who missed out on the European 2000 trophy by a strong group of Norwegians – joined representatives from Portugal, Belgiu, France, Switzerland, Germany, Brazil and the United States. April 14 held 2 races in medium to light winds. Clearly the predominate wind for Californian George Szabo, use to those conditions for those who remembered the Worlds in San Diego. In both races Szabo finished in front of the Dane Iversen. Third place was held by Solerio in the first race with Bibi Juetz of Brazil in the 2nd race.

Sunday, April 15 the wind came from the NorthEast with a squall where winds were measured up to 35 knots, which kept the fleet ashore. Easter day was beautiful with winds from 5-7 meters per second. 3 races were finally held with the possibility of a throw-out. Iversen was very consistent and won the third race followed by Szabo. But the next race Solerio gained with a win, with Iversen in 2nd and Szabo in 5th. The last race, Szabo retired and the victory was delivered to Iversen/Lund but the Portuguese Talone won the race followed by Jonsson and Solerio. Finally in the last race a true "South European" won, which demonstrated great competition, especially on the final day. Enrico Solerio expressed his own satisfaction with his results, emphasizing how important it is to compete with the best international sailors in the Snipe. To this I can only agree!

–Stefano Longhi

Pre-World Championship	Punta del Este, Uruguay	November 17-18

Henry Davis Repeats as International High Point Champion

Henry Davis, Iowa/Nebraska Fleet 309 has once again finished in the top position for the Reichner International High Point Championship trophy. He has also won the US Minneford High Point. Henry has the distinction of being the Reichner champion 12 times prior, and Minneford champion 13 times prior!

The High Point Trophy is awarded annually to the skipper who earns the most points for a minimum of five races in the season, and is thought to be a precursor to the National Championship. A carefully thought-out system equalizes fleets of different sizes and seasons of different lengths.

Henry won with a margin of 21 points over 2nd place finisher Ted Pinkerton of Cleveland, Ohio. No entries were filed from any fleets outside the United States for 2000. Henry raced 18 races in his fleets series while Pinkerton sailed 16. The most races completed by an entrant were 56 by Ben Givens of St. Petersburg, Florida. The oldest Snipe sailed reported in the series was 7007, raced by Wolfgang Moller of Quassapaug, CT.

Overall 121 entries were filed from 12 fleets.

Rules for the High Point are found in the Rulebook with details for scoring. Start planning your 2001 season now and compete for the two oldest SCIRA trophies in continuous existence!!

This photo of John F. Kennedy (taken from a magazine) was forwarded to the SCIRA office from Andre Callot of Belgium. Snipe 8696 was originally owned by Wm. Rushlow of Virginia who was a member of the Potomac River Fleet #60, and homebuilt & measured in 1951. The photo has an estimated value of 6,000 francs.

SCIRA Promotions - see what's new!

Each year, it is the Vice Commodore's task to oversee promotions for SCIRA. This year, Vice Commodore Birger Jansen is working with Skipper Snipe owner and multi-talented photographer/writer Tommy Svensson of Sweden to produce a new Snipe brochure. In addition, several countries have taken promotional efforts on their own and had considerable results with their efforts. Below are some ideas that have been forwarded to the SCIRA office.

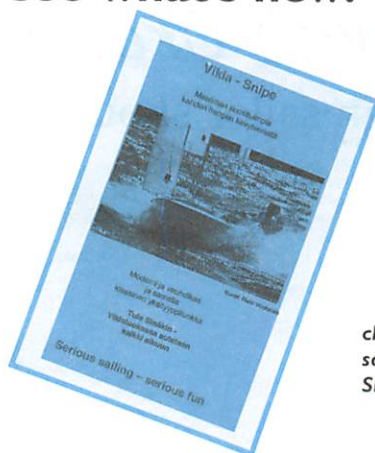

FINLAND

National Secretary Kai Saarhelo has spent considerable time creating more value for the sailors in Finland, building upon the new resurgence in sailing as a result of Finnish medals in the 49er in Sydney's recently Olympics. Following are some of the ideas in the Finland pipeline:

- Ø Creating and improving the new internet page: www.snipe.fi
 - Ø Creating a 4-page A5-size color Snipe brochure for the sailing exhibition
 - Ø Published a short article in the biggest boating magazine in the Nordic countries
 - Ø Organized their annual meeting in February
 - Ø Display of 2 Snipes in the boat fair in Helsinki (classic 60's and new Skipper Snipes)
 - Ø Holding a Snipe fair in Turku
 - Ø Advertising and organizing a new type of Nationals in June-July: open class and classic Snipe for wooden and older boats.
 - Ø Advertising the web page address on Snipe booms over the summer
 - Ø Motivating the Finnish SCIRA Board!
- Finland's color Snipe brochure is nice! Contact Kai for a copy! (kai.saarhelo@siemens.fi)

FRANCE

French sailors annually display a Snipe at the Paris Boat show, and this year was able to have an article published in *Voiles* magazine, the French boating magazine. French National Secretary Philippe Roy publishes a very complete annual report and has a publicity agent assigned to the Class in Gordon Davies.

Sailboat Racing with Greg Fisher

The book no one-design sailor should be without.

If you want to sail better, faster, and have more fun while doing it, take some tips from one who already does – one-design veteran and multiple class champion, Greg Fisher.

Through a combination of “how-to’s” and enlightening anecdotes, this packed-with-photos book will be your go-to guide when you decide to up your level of performance and fun. If you are a competitive sailor but not as competitive as you want to be, click now on www.GoFastSailing.com or email ThomasHubbell@compuserve.com to order your copy of *Sailboat Racing with Greg Fisher*.

Written by Tom Hubbell. Photos by Greg Fisher.
