

REGATTA TIME. The Start of a Snipe Race at Any Yacht Club Any Place in the World. Racing a Snipe is a Lot of Fun!

"Just Yacht Sails" Southern Sailmakers Lighthouse Point Fort Screven, Georgia

# SNIPE RACING SAILS

The finest hand finished Snipe racing sails that money can buy, made of the finest materials in the market and in a quality of workmanship never surpassed.

Available in ORLON and DACRON, Conventional cut or MITRE CUT, in your choice of FOUR special cuts designed for various conditions by cur own Aerodynamist with the assistance of some of the greatest' Snipe Skippers of all times.

### Prices are as follows: Mainsail and Jib. DACRON

Mainsail and Jib, ORLON	\$1 <b>6</b> 0.00
*For mitre cut mains add	\$ 10.00

\$130.00

Above prices are for sails complete with all hardware, class emblem, numbers, bag and battens.

Complete information, specifications, fabric samples and order forms will be forwarded at no obligation.

Subscription Rates.

\$2.00 Per Year.

Owners of measured and paid-up Snipes receive SNIPE BULLETIN as part of their membership free.

Forms close on the 15th of each month preceding publicat, ion. Material received after that date will not appear until a later issue. Contract advertising rates may be had on application. Be sure and notify SNIPE BULLETIN of any change in address, giving both old and new addresses.

## DECISIONS OF THE RULES COMMITTEE.

When the electric bilge pump was approved in Chicago last February, it was ruled it could be counted as part of the 425 pounds minimum weight if securely and permanently installed as part of the boat, as other pumps are; however, batteries are not part of the pump itself and, since they are removable, can not be counted in as part of the weight.

Paragraph 54 of the Measurement Data Sheet says, in the case of an underweight boat, that "Ballast, up to 10 pounds, may be permanently added immediately under and attached to the deck." However, with the adoption of lighter boards, as aluminum, making the weight range of boards from 30 to 80 pounds, it was evident that some provision had to be made to take care of the weight difference between boards when a permanent change was made. Therefore, the Rules Committee has decided that the weight difference may be attached in the form of ballast to the keel inside the boat, provided it is securely and permanently attached. Heavier floorboards, pieces of oak screwed to th frames, the keelson, or blocks of wood on the bed-logs or mas. step are methods which could be used to make up the difference.

## OBSERVATIONS ON ALUMINUM BOARDS AND MASTS

The popularity of aluminum boards, of course, is due to the ease of operation, especially among fleets sailing in weedy waters. Reports of satisfactory performances are increasing as records build up. There is much cautious experimentation, and one top sailor has threeboards --80,60, and 32 lbs. which he has been trying in test races. At present, he is inclined toward the lighter boards. Many larger class boats use boards considerably lighter than the 80 lb board recommended for Snipe ( some are simply plywood ) and it is opportune to make such experimentation now. Reports on performance and conclusions made after a fair trial by individual skippers will make good reading for other Snipers and you are invited to send such information in.

Likewise, plans are proceeding to produce a better aluminum mast for the class. Walter Krause of the Grand Rapids Fleet is heading the investigation and it is thought that a round extrusion might eliminate the bending and necessity for spreaders. Incidentally, an aluminum mast will sink and when a boat turns over on its side, the mast tends to pull the hull completely upside down. Care must be taken not to bend the mast when retrieving the boat. Efforts have been made to make aluminum masts float in other classes using them, even to stuffing them with ping-pong balls, but to no avail. Recent application of fiberglas cloth to wooden masts in a successful attempt to stiffen them might point the way to a desired improvement in wooden masts by eliminating the annual upkeep. Such fiberglassed-masts look mighty good, but the high cost is still there. Also, plastic masts are now in the experimental stage. Such a mas might be resilient and have flotation, as it could be waterproofen and sealed. It is hard to tell what the future may bring.

## OFFICIAL SCIRA REPRESENTATIVES AT REGATTAS

Vice-Commodore Fred Schenck will be the official SCIRA representative at the U.S. Nationals, while Commodore Terry Whittemore, if not a contestant, will represent the class at Portugal.

THE IVY CLUB GROUNDS AT PEORIA, taken in the winter time. There are two automatic hoists located at each end of the concrete strip at the water's edge in front of the clubhouse. The harbor is for cruisers. The new swimming pool can be seen at left of the club.

# SNIPE CLASS NATIONAL CHAMPIONSHIP

Mug. 2-3 U.S. JUNIOR CHAMPIONSHIP, on Illinois River at Peoria,Ill. Stanley Salzenstein,215 S. Adams St., Peoria,Ill. Aug. 5-10 U.S. NATIONAL CHAMPIONSHIP SERIES.

Last month we gave a little background of the Peoria-Indianapolis co-sponsored Nationals and this month we present the social picture as well as some physical characteristics of Peoria.

Full race schedules have been mailed to all fleet captains along with entry blanks. Briefly, the Junior Races are on Friday and Saturday, Aug. 2-3; the five Crosby Races on Monday, Tuesday and Wed. ; while the Heinzerling and Wells Series are on Thursday and Friday with the final race Saturday morning. The banquet will be Friday night and the presentation of trophies will occur Saturday P. M. at 1:30. Thus your day activities are accounted for by races and meetings.

Saturday night, Aug. 3rd, the Junior group of the Ivy Club holds a dance for all Juniors participating in the Championships. This is a party for Juniors only. Sunday night will see an informal beach party for all participants. On Monday night, all adults have been invited by the Pabst Brewing Company to visit this famous brewery and partake of a little light refreshment and a buffet. Tuesday night sees another beach party. The Club has a large new swimming pool which is open free to skippers and crews. This should make a fine evening for all. The pool is available on days as well. Wednesday night, all those wishing to participate in a Dutch Treat dinner will go to Vonachen's Railroad Junction for cocktails and dinner. This is one of the show spots of Central Illinois. On Thursday night, the Ivy Club Water Ballet Team will provide entertainment in one of their spec taculars, followed by a swimming party. Friday night is the FINAL BANQUET to be held at the Pere Marquette Hotel, the 'tionals' Headquarters. We are holding it this night so that. -ter the final race on Saturday morning, trophies can be presented and the boats packed and on their way, thereby getting an early week-end start home.

The physical characteristics of the Peoria sailing area are very good. Peoria Lake is part of the Illinois River. The lake itself is unobstructed and the racing courses are in an area approximately 1 mile wide and 1 1/2 miles long. Depth is good to very near shore line. The west side of the river has a bluff which is set aside from the river about 1/2 mile. This bluff is not high, and since west winds are uncommon, it probably won't interfere. The east bank is low, flat land for a distance of a mile or two with no interference. Our winds are prevailing southeast and usually get a northeast switch. The river has a dam about 5 miles below the lake which holds back any severe current problems. Our water is as clean as most rivers and is free from any oily scums, etc.

The Ivy Club is located on Route 29, Galena Road, and is 1 mile north of the city limits and is easily found. We have two automatic launching cranes which require lifting rings for the easiest operation. We have belts which can be put underneath the hull, but it takes a little longer. Cement drives connect the cranes and launching areas. We are all set for the big event and the welcoming committee is looking for the first arrival.

-Cleve Slauson.

Once again the Big Event is upon us! If you are entered, don't let ignorance of the rules or carelessness in observing them mar your arrival. Complete information can be had from the Rule Book--the Juniors under the Duffy Trophy and the Seniors from the Heinzerling, Wells, and Crosby Trophies. In general, rules and conditions are the same as last year. ALL BOATS WILL BE WEIGHED (boats with green permanent measurement cards are NOT excepted). These new Rule Committee decisions apply: (1) if an electric bilge pump is permanently installed, it counts in the 425 lbs. (2) ballast added to compensate for weight difference in centerboards may be permanently attached to the keel. Only one board and one mast can be considered part of the boat, so don't expect to switch boards and/or masts at will.

The same old warning holds good! Don't show up at the Nationals with a questionable Snipe! Green card boats are accepted conditionally, while all others will get a thorough going-over. Save time, disappointment, and last minute changes by checking everything before you leave home, and, if in doubt, call on your Fleet Measurer. Pay particular attention to weight, mast bands, and sails. Also, don't forget that Juniors must own and regularly skipper their own boats in fleet races and use junior crews as well. WE WISH YOU GOOD SAILING AND GOOD LUCK1

# HIGH-POINT SCORES ARE ALL TIED UP BRAZIL AND PORTUGAL HAVE PERFECT MARKS U.S. WINNERS GET 1740 EACH

For the first time in 25 years, high-point score contests for the Reichnor (International) Trophy and the Minneford (U.S.) Trophy resulted in 2-way ties for each title. Ties within a fleet using the SCIRA high-point scoring system are extremely improbable, but, of course, inter-fleet comparisons can produce some identical total results.

Luis Brotherhood of Pernambuco Fleet 211 (Brazil) and Fernando Marques of the Mocidade Portuguesa Fleet 216 (Portugal) both sailed 15 races and both won every race and the 15 first places put them in the top position with perfect scores of 1750. F. J. Madgwick of Broadstairs Fleet 388 (England) was not far behind with 1744 for 15 races and 2nd place in international standing.

Then two U.S. skippers came in for third place with identical scores of 1740 each, which gave them a hand apiece on the

# YOU WILL FIND YOUR SCORE HERE ÏF (1) you paid your dues last year as a member of SCIRA. (2) you had a measured boat and were eligible to race. (3) you sailed in at least 5 official pointscore races. (4) your Fleet Captain sent in the point-scores as required under the Fleet Charter. and if you don't find it \_\_\_\_

8645	Joe Becker	Sequoyah, Okla.	16 1667	

Minneford Trophy, emblematic of the high-point champion of the U.S. Andrew Whitman of Pine Beach Fleet 256 (New Jersey) sailed 16 races with 15 firsts and 1 third for his score, while Joe Remlin, Cedar Point Fleet 56 (Connecticut) competed in 14 races, got 14 firsts, and a tie with Whitman. Joe missed two scheduled races and a good chance to win a clear claim to the title for himself.

Thus each winner will have a six months claim on the trophies, while SCIRA gets stuck for four medals instead of two. All Snipers congratulate the four winners, at the same time resolving to see what they can do to break the tie this year. Reports indicate increasing interest in our point-score races, as these requirements furnish a common base for comparison throughout the world.

After you have finally located your own name in the above list; properly defended your inadequate showing, along with some witty remarks deploring the rating of fellow competitors; and finally, secretly resolving to do better next year, we offer the following little inspirational thought in benediction:

As I sat musing one day, Sad and lonely and without a friend; A voice came to me from out of the gloom, Saying, "Cheer up! Things could be worse." So I cheered up and sure enough! Things got worse.

# SNIPE NEWS IN BRIEF

Frank H. Davis, Public Relations Director of the International Room, San Francisco Airport, is building a Snipe and plans to resume some active sailing again. He orders plans and says: "I've spent many a wonderful summer in my younger days cat boating near Wareham, Mass. My father-in-law, John G. Hanna, is the designer of the Tahiti ketch. And speaking of the Hanna ketch, we had quite a thrill this week when two young fellows arrived in San Francisco after sailing their ketch from New Zealand ---- they were 11 months making the trip and really had some thrilling experiences. Their boat is the TAIHOA, which won the Trans-Tasman race in 1954 and they set some speed records by doing 800 miles in 7 days on one stretch and made 150 miles in one day. I am anxiously anticipating the plans and the thrill of racing my own Snipe in local competition." Just another example of a man who knows boats choosing a Snipe for fun and thrills..... Charles D. Schnee of Setauket, L. I sends in current dues -- "Although I am an old member of the Port Jefferson Fleet, I have been racing with the Wet Pants Fleet of Savville. I would like to see the local fleet reactivated and will work toward that eventual end. Someday old 39 might race again I..... Bob Carrick informs us, sadly, that the Clear Lake Fleet 75 will not be active this year as many members joined other fleets for various reasons. Clear Lake is a resort area with only one Snipe owner a full-time resident. Since the other members are from San Francisco, each has, because of convenience, found it easier to belong to a fleet nearer home. Two of the members are now re-activating the Richmond Fleet #12, while several have joined Lake Merritt." Such changes occur all over the country, as new highways and lakes offer opportunities to enjoy your sport. The tendency is to go where the bigger fleets have more competition to offer, along with better facilities, club-houses, etc. People think nothing these days of hauling a boat wherever they want to go. The automobile age is truly upon us !.... Fearon D. Moore, expert interpretor of sailing and racing rules, has left his Glen Ridge home for Honolulu, T. H. (Imagine!), P. O. Box 341..... The Los Angeles Harbor Fleet 2 had their first try at a turnabout series. Each skipper sailed a different boat in three races. It turned out to be a real education, and a lot of fun, for all. Dr. George Coats was the best skipper and Larry Helscher's Z-BIRD 7333 proved to be the best boat. If more fleets would instigate such a series, many local problems and arguments could be settled to the satisfaction of all..... The Encinal Fleet 114 at Alameda lost their clubhouse when the sailing area was filled in. Until they are able to rebuild in a new location, they will do most of their racing on Lake Merritt in Oakland..... Jerry Sachnoff reports that Sheepshead Bay Fleet 115 now has ten boats and ALL fiberglas hulls. The fleet has really grown and changed in style since re-activation two years ago..... Gordon Randall and Franklin Farrar have joined forces to get a new fleet started near Tullahoma, Tennessee. New lakes in that area created by the Corps of Engineers make such a proposal possible. In Gordon's words,"I feel like a Methodist missionary who finds he is making converts for the Baptists. Tiring of the 200 mile round trip to Chattanooga every week-end to sail there, I decided to see what I could do around home. Sailing, like drinking, is much happier when done in good company. So I started looking for potential Snipe buyers a few months ago to give me companionship. I got the emotional condition right, turned on the sales talk, and bless me if two of them didn't buy Penguins ! One year of sailing with those boats and I'll have two more Snipe owners. Rationalizing, though, I have to admit that any kind of a sailboat ownership is preferred over bank sitting and watching. "..... The Tokyo Bay Fleet, Tokyo, Japan, will grow this year to be a bigger one with the addition of 8 Snipes and twenty more members recently registered with the fleet. A full schedule of racing is presented for the first time with 18 point score races, 3 open races, and the final Japanese Championships scheduled for October 13th. A Japanese team will be in Portugal for the World Championships.....Snipe #127 turned up in Los Angeles when Lt. W. W. Nipper (Navy) reported that he had just bought it and hoped to race eventually..... The Kalamis Fleet 422 in Istanbul, Turkey, reports their regular racing season has started with more enthusiasm than ever before and with two new boats under construction. Turkey, too, will be in Portugal.

Snipe! Sniphon contains no other metal than aluminum, in order to avoid galvanic corrosion. Pump plungers are raised on intake stroke by 2 shock cords fastened to frame one, and attached to nylon ropes running over synthane pulleys to pump as shown. Plungers are forced down on discharge stroke by skipper or crew pulling on rope handle. Shock cords quickly plastic garden hose) run from pump base through transom or topsides. Special bracket for adapting pump to fiberglass trunk, \$2.00 extra. Trunk overhang and hose not included with pump.

#### \$25.95 Prepaid U. S. A.

## MORE ON JIB FAIRLEAD LOCATION

In the article on jib fairlead locations in the June Bulletin, I neglected to make clear the fact that I was talking about fairlead location when going to windward. When reaching, the fairleads should be as close to the sheer as possible and farther back than when going to windward. I believe the best solution for the fairlead problem when reaching is to use a trick fairlead of some type under which the jib sheet can be hooked quickly, located on the sheer and far enough back so that you don't sit on it when hiking out.

## FOR OLD TIMERS ONLY

By this time of year there are always some fairly new skippers who have done reasonably well in the past who are all of a sudden beating the pants off of the old timers. If you are one of the latter, before placing your order for a new boat or a new suit of sails, see what your answers are to the following questions:

> 1. How long has it been since you and your crew went out and just simply practiced jibing and coming about for a couple of hours? If every jibe and every come-about that you execute is perfectly done, you can skip this question.

2. How long has it been since you have spent an hour or so just practicing starts ? If you have had a perfect start in every race you have been in this year, you can ignore this question, too.

3. Can you truthfully say that you have not lost any positions in any races by paying more attention to the scenery or conversing with your crew than you have to sailing that particular leg of the race?

Sometimes people have seasons when it seems that they just can't do anything right no matter how logical the action looked at the time, but usually a little honest analysis of alleged bad luck will indicate that the skipper had something to do with it.

## COVERING AFTER ROUNDING THE LEEWARD MARK

If you are far enough ahead when rounding the leeward mark, the best method of covering your nearest opponent is, of course, to tack twice so you will be to windward and ahead of your opponent and on the same tack as he is when he rounds the mark. If you are only a short distance ahead, of course the only thing that you can do is to harden up on the wind and wait for him to tack; however, there is a situation which arises fairly often in which the wind has shifted so that one tack is obviously the one heading closest to the mark and therefore the tack you should obviously be on. Under these conditions, however, I have frequently seen it happen that a boat following 100 feet or so behind the leading boat will have a better wind direction and sometimes even more wind velocity on rounding the mark than the leading boat had. Under these circumstances, the following boat can point higher and, if he is fortunate enough to have a bit more wind also, will soon have caught the leading boat. This has happened to me several times this year both as the leading boat and as the following one. If this happens to you and you are the leading boat, it is sometimes too late to do anything about it by the time you realize what is going on, so the safest thing appears to be to use up about one-third of your lead on the following boat, taking the tack which is the one not closest to the mark. This tack may turn out to be wasted, but if the wind does shift in favor of the following boat, you are more likely to get the same shift and, in any case, you are somewhat to windward; and if the following boat does get a shift favoring him, it will merely make him sail up under your lee where by all the rules and regulations he should stop gaining on you.

# WANTED

# FLEET CAMERAMEN

# with 16mm Equipment &

AN URGE TO GET THIS YEAR'S SNIPE EVENTS ON FILM.

A low paying job with high dividends in a better film library for all fleets to enjoy.

CONTACT: Peyton M. Stallings SCIRA Film Library Midwestern Film Assoc. 304 S. Green St. Lee's Summit, Missouri.

As you can infer(after reading the above appeal), an official motion picture film library has been established under the direction of Peyton M. Stallings, owner of Snipe 10323 and member of the Missouri Yacht Club at Lee's Summit, Mo. The library will be operated from Mr. Stalling's film production company, Midwestern Film Associates, 305 S. Green St., Lee's Summit, Mo.

All persons having motion pictures pertaining to SCIRA activities are urged to forward such films to the library at the earliest possible moment. Such films should be accompanied by a detailed caption sheet, unless already adequately titled.

A listing of films currently available may be obtained by, writing to the library. Such a list will be published in an early issue of the BULLETIN. Bookings will be made on a first-comefirst-served basis, as only one copy of each film is presently available. As the library reaches a self-sustained basis, extra copies of the most popular films will be obtained.

CURRENT MOTION PICTURE FILM IS URGENTLY NEEDED! Many of the films on hand are black and white and chiefly of historic interest. Fleets who can assign an official fleet photographer and who are willing to donate motion picture footage of their activities are urged to contact Mr. Stallings at the earliest opportunity. The more choice of available film, the greater the success of the venture. All footage must be in 16mm and shot in accordance with instructions furnished the assigned fleet photographers.

After many years of hap-hazard management, it now appears SCIRA has finally obtained the services of an expert photographer who can and is willing to manage a proper film service for the members and the good of the class. If you have any films of any interest to Snipe sailors at all, send them in and let Mr. Stallings look them over. More details will be announced later.

# As Others See It Voice Of The People

# JAMAICA WANTS TO JOIN

Mr. W. Robert Fletcher, Rear Commodore of the Montego Bay Yacht Club sends in this fine news:

"There are 7 Snipes at present in the Montego Bay Yacht Club (Jamaica, B. W. I.) and before long we hope this will increase to 9 or 10.

Recently I visited Santiago de Cuba on my boat and had close contact with Carlos Bosch, Fleet Captain of the Santiago Snipe Fleet. Mr. Bosch convinced me of the advantages of Snipe Class boats being registered in a fine International Class Association and yesterday afternoon, I had a meeting of Snipe owners together with the Managing Committee of the Club and it was decided to form a fleet and join your Association.

A Measurement Committee was elected composed of Leslie D. Fletcher, Club Commodore;C. R. Buhrer, member of the Managing Committee; and Peter Ellis. We are anxious to get started and will greatly appreciate immediate receipt of measurement data sheets." Needless to say, they got them by airmail. When Jamaica joins up, the Carribean League will become more of a possibility than ever before.

## AN ANSWER TO A COMPLAINT

"There have been several complaints (like yours) and considerable discussion in recent times concerning the severity of a DNF and DSQ penalty when caused by a technical reason rather than skipper action of taking deliberate chances. They feel that it can ruin an entire season's standing and chances of a championship, especially in a big fleet where a 26th place, for example, would be a death sentence to a man with a string of first places. They want to ease up on the penalty or not count it under certain circumstances.

Well, there may be a good argument there and the penalties probably do cause undue hardship in some cases. Perhaps they should be cut in half, etc., at the discretion of the Race Committee after consideration of all circumstances, but then the question comes up as to where, how much, etc? I think you will hear that angle discussed a lot in the future and SCIRA officers are aware of the question.

However, all SCIRA races are sailed under NAYRU rules and the class is pledged to obey them. They made the penalties stiff for sportsmanship and safety reasons alone -- the DSQ discourages a reckless man from taking chances which might cause serious accidents, while the DNF from a broken mast or rudder guarantees that a good skipper will watch his equipment and not take chances on defective or insufficient equipment to the peril of himself or others. A fellow might use an extremely light mast if he thought it would give him a sailing advantage, and then find himself in bad trouble if the wind picked up, etc. It discourages such practices. But at the present time, regardless of how you feel about it and the merits of your case, all SCIRA fleets must abide by the NAYRU rules and ouv own point scoring system. There is no other choice for it would not be fair for one fleet to sail point score races under till ir own local rules while all other fleets observed SCIRA and NAYRU rules."

## SAILING IN THE ROCKY MOUNTAINS

"After one poor season followed by two years of no sailing in Denver (lack of water), the Rocky Mountain Fleet 210 and Sloan's Lake will see much Snipe activity this summer. The recent floods filled up the like with prospects it will stay that way for years to come.

A combination of old die-hard Denver Snipers and some newcomers like Bill Seuren of Tulsa account for the new burst of enthusiasm. Anyone living in Denver or recently arriving 's asked to call me at East 2-3366 for a get-together; please spread the news around.

About a year ago, we decided to use what little was left in our treasury to buy subscriptions to the BULLETIN for five of the inactive members in order to foster interest. May I say that the BULLETIN is an excellent salesman and that 3 of our 6 boats sailing this summer came from the list of five."

- Tad Frost, 40 S. Elm St. , Denver, Colorado.

# WANTED AND FOR SALE DEPARTMENT

CLASSIFIED ADS. Used Boats and Equipment Why not try an ad here for only five cents a word, at a minimum charge of \$2.00? RESULTS WILL BE GOOD!

<u>AT LAST--Build your own "CHAMPION" mast!</u> The complete plans of the famous WELLS round mast for Snipes. 4 sheets of blueprints with all the details, including hardware and rigging, for only \$1.00 per set. SCIRA, 655 Weber Ave., Akron 3, Ohio.
