

WHITESIDE NEW HI-POINT CHAMPION GLEN LAKE SKIPPER HAS PERFECT SCORE SHEET

Here are all the point scores for the season that ended March 31st, 1951. This takes in point score races held during the racing season of 1950. More than 500 boats are represented in this list and they represent the majority of active fleets. Several foreign fleets are represented including England, Brazil, Portugal, Cuba and others. There will, in all probability, be others sent in but we feel that to wait longer makes it difficult for those who finished in the lead.

The winner is Mate Whiteside of the newly formed fleet at Glen Lake, Michigan. He took part in fifteen races and finished first in each one. Five to eight Snipes took part in each race.

He will get the Minneford Perpetual Trophy for U. S. High Point Championship and also the Reichner Perpetual Trophy for having the highest score for the entire world. Both trophies date back to 1932.

OUR FIRST ISSUE

This is really the first official issue of the SCIRA Bulletin and while it is not very elaborate to start with, we hope that, in time, it may be expanded and improved. It is not going to be published on a monthly basis just yet as the Association feels that it should wait awhile and see how it is received. In this Bulletin, we hope to include all important Snipe Association news, race results and other items of interest to Snipe skippers. But it must be kept small at first—we must learn to crawl before we can walk - so bear with us and we'll see what can be done.

SNIPE RACING CALENDER

Here is a list of important race dates for the coming summer and fall. There are several more to be heard from, but unless fleets let us know when and where their races are, we have no way of guessing at it. For further information on any of these races see your 1951 Snipe rule book, where nearly every trophy is listed with information on entering such races.

June 30	N.Y. State 3 Boat Team Race, Olcott, N.Y.

NEW RATES NOW EFFECTIVE

Once more we would call your attention to the new rates for dues, etc. as effective the first day of June, 1951. Dues will now be three dollars per member—for both owners and co-owners; and two dollars for transfer of ownership. Racing numbers will also cost two dollars from now on, so pass the word around. Of course each member must be the owner of a measured Snipe, with a measurement data sheet on file at headquarters. Dues cannot be accepted from owners who state that their measurement data sheet will be in "next week". We used to accept such dues but the measurement sheets usually never did come, once the owner got a membership card. For the last few years, unless a boat has a measurement sheet on file at headquarters, the owner's dues are returned to him.

Send all dues and other remittances to Snipe Class International Racing Association, 522 Stellar Avenue, Pelham, 65, N.Y.

MORE SCORES COME IN

Of course, you might know that the minute the scores were finished up as listed here; additional sheets would be coming in. Since it is impossible to do the entire listing over again, we will have to add the new scores below. Of course, they aren't in regular order but at least it will give recognition to the late arrivals.

Several fleets this past season sent in scores listed on an ordinary letter head, one right under the other and these could not be accepted. SCIRA has regular forms that must be used for sending in the results of point score races. If everyone used their own idea on this, the scores would be in such a jumble that no one could understand them. Scores must be made out, a boat to a sheet and on arrival at headquarters, these sheets are arranged in the order of point scores, just as you see them listed here - regardless of fleet. Any other method would not permit this sort of listing. If your fleet does not have score sheets, write to the Executive Sec-
