

All boats should be registered with the Executive Secretary and their address. If no fleet lists, but if there are a number of other registered boats nearby, the owners will be put in touch in order to form a fleet. There is no charge for registration, but owners of such boats cannot become members of the Association until after their boats have been measured and dues of \$1.00 a year paid to the Association. Only measured, measured and paid-up boats are eligible to race. Owners of non-measured boats cannot pay dues to join Association. Upon receipt of dues, the Executive Secretary sends each owner a copy of the class rules and a membership card. Owners of non-measured boats may secure the rules book for twenty-five cents.

Total registered boats to date 2,080. Total chartered fleets to date 75.

MBER of changes have taken place in the point scores they were printed on these pages last month and the following list includes all boats with more than 1,500 points five or more races to their credit. The first two boats, based on points have a difference in the number of races and therefore Blue Shadow is actually in the lead.

The third annual Snipe Association dinner will be held on the evening of January 15, probably at the Architectural League, near the Grand Central station. Tickets will be \$1.25 which will take care of everything. Some special features are being planned and it is hoped that between seventy-five and one hundred Snipe owners, crews, wives and sweethearts will be on hand. The date is on a Friday night making it possible for out of town visitors to take the week-end and see the Motor Boat Show, the Statue of Liberty and the Aquarium. Reservations may be made at any time by simply sending check or money order to W. F. Crosby, 9 Murray Street, New York City. Tickets will be sent out as soon as available.

Fleet No. 75 has been formed. It is known as the Negroes Yacht and Boat Club at Sagay, Occ. Negroes, Philippine Islands. Speaking of foreign fleets, the fleet in Northern Ireland sent in its seasonal point scores recently but only one boat qualified for the above 1,500 mark as listed on these pages. Geoffrey Pout, British secretary of the Association, reports that point scores from the British fleets will be in time to be printed next month.

Is your racing number among the following? Look carefully and if you discover a number that you know notify your friend and have him write to the Executive Secretary at once giving his permanent and correct address. Mail addressed to the owners of these boats has been returned by the Post Office Department and these numbers will be reassigned after February 1 unless the owners let us know their correct addresses—Nos. 2, 6, 12, 37, 62, 78, 93, 101, 104, 222, 226, 270, 311, 332, 334, 345, 361, 385, 386, 392, 410, 415, 436, 442, 491, 514, 523, 542, 571, 672, 692, 699, 769, 790, 799, 802, 814, 878, 907, 943, 951, 1065, 1117, 1218, 1264, 1357, 1368, 1397, 1410, 1419, 1442, 1468, 1508, 1766, 1848, 1912, 1933, 1963.

New measurement sheets have at last been approved by the International Rules Committee and with a few corrections these sheets should be printed soon after the time that this comes to you. These sheets will have to be made out in full for every

boat measured after the first of the year and the data is most complete. There are no changes in plans, restrictions, etc., but the sheets will be used to give measurers a regular check on every item listed. The data is most complete and in addition to going to measurers, these sheets will be available to builders and owners who desire them so that everyone may know exactly what the requirements are. It will prevent much chiseling which has been going on in some fleets.

The 1937 Rules Book will be a little more elaborate than heretofore and will come out some time before the start of our official season (April 1). If there have been changes in the officers in your fleet, the Executive Secretary should be notified so that the correct names and addresses may appear in this booklet. It is desirable to have a complete and correct list.

The parachute spinnaker has cropped up again and it seems now that several fleets are determined to use this sail for fleet racing next summer. According to present experience the only way it should be used would be to have every boat in a race carry it, for if one boat did not use the sail she would have a distinct advantage. However, the spinnaker will be educational in many ways and on a long down hill run it will be of distinct advantage. Every boat in a given race must use the sail—or none use it.

The Snipe races at Clearwater, Florida, will be held February 26, 27 and 28. Boats of the class that are duly registered may compete and if not measured will be measured at the Clearwater Yacht Club. You don't have to belong to any fleet, you don't have any minimum number of races that you must have been in and you don't even have to be measured until you arrive. For circulars and information, write to F. C. Picker, Clearwater Yacht Club, Clearwater, Florida. Just the week-end before this event, Snipe races will be held by the Palm Beach Yacht Club of West Palm Beach and following the Clearwater Yacht Club races, you may go to Orlando, Melbourne and other Florida cities for further Snipe racing. In fact, starting with the Palm Beach regatta on Washington's Birthday, you will be able to enjoy Snipe racing practically every week-end until the latter part of March.
