geirbmyre@gmail.com

Dear Geir;

Thank you for submitting the bids to host the 2026 Snipe European Masters & Women's Championships. The SCIRA Board has considered the bids and has conditional acceptance pending the following items being considered or changed per SCIRA's request.

Website: SCIRA has dedicated websites for our championships and it is required that <https://euro.snipechampionships.org> be the website. Our office collaborates with you to customize, but all information & entries will go through this dedicated website. This also archives past championships for the Class to maintain our almost 100-year-old history. We are happy for you to use Manage2Sail for results and can embed this link into the website. This is non-negotiable.

Race days: Given the different Deeds of Gift for each event (Masters: 7 races over 4 days & possible layday; Women's: 6 races over 3 days), please detail the # of days racing for the Masters and Women's events. The Board is looking at the price per day and number of races to justify the entry fees.

Charter Boats: thank you for the possible list of planned boats for charter. The Board has asked for consideration to possibly offer 1 free charter boat per country to entice more countries to attend. We realize this is a considerable ask, but feel the cost and distance to attend may be a greater incentive.

Thank you for the consideration of the above items. As soon as we have a response from you and the SCIRA Board is satisfied, we can announce the decision.

Here's to a successful regatta for the Snipe Class;

Best regards,

Jerelyn Biehl
SCIRA Executive Director
